You may turn right while the traffic signal displays a red light. Before turning, you must come to a complete stop. You may not turn right on red if signs are posted at the intersection that read "No Turn on Red," or if a red arrow pointing to the right is displayed.

What must you do before turning right at a red traffic signal?

Slow down and proceed with caution.

Come to a complete stop, look both ways and yield the right-ofway to pedestrians and other traffic.

Check your rear view mirror. Come to complete stop and proceed when the light turns green.
